OF LOCAL
INTEREST

A SICK BABY—The infant child of
Mr. and Mrs. H. W. Taffe who has
been very ill for two or three days
was reported a little improved yester-
day.

ANOTHER MATINEE—It is under-
stood the Phoenix Driving association
is preparing to celebrate the seven-
teenth day of St. Patrick by another
big racing matinee.

BAND CONCERT—Yesterday was a
fine day for the Sunday afternoon band
concert that has been materially in-
terfered with for sometime past and it
was appreciated by quite a large as-
semblage notwithstanding the attrac-
tions at the park and elsewhere.

THE NORSK NIGHTINGALE—Major
William F. Kirk of the Milwaukee
Sentinel is visiting at Tucson. Major
Kirk is the humorist of the Sentinel
and he is known throughout the United
States by reason of his poems, mostly
parodies in the Scandinavian dialect.

**THE CRITTENTON HOME CIR-
CLE**—There will be a called meeting of
the Crittenton Home Circle this after-
noon at the W. C. T. U. room at 2:30
o'clock, and all members are most
earnestly requested to attend. This
meeting is something of a vital im-
portance is to come before the meeting.
Mrs. Edgar Wilson, secretary.

PRAYER FOR LEGISLATORS—
Rev. Dr. Halsey yesterday at the close
of services at the First Baptist church
announced that a prayer meeting
would be held for benefit of the house
committee on mines and mining to the
end that it would be changed as to
the hardness of their hearts and the
stiffness of their necks and be induced
to let go their grips on the Davis anti-
gambling bill.

A FORMER PHOENIX GIRL—
Among the members of the White
Whitely company that shows at the
Dorris opera house tonight, is a young
lady named Miss Edith Campbell. It
is understood that this is Miss Edith
Campbell who lived here in childhood
and who after fitting herself for the
stage visited Phoenix last year on her
first tour. Her many friends will be
more than pleased to see her again and
note her success in her chosen profes-
sion.

DESERT IS VERDANT—H. N. Cox,
mayor, chief of police, board of trade
and postmaster of Morristown, spent
yesterday afternoon in Phoenix, re-
turning home on this morning's train.
Mr. Cox says the tide between here
and Morristown is now a delightful
one as the deserts are green instead
of brown and lack that "Arizona" ap-
pearance one reads so much about in the
story books.

ERICKSON-STAMBAUGH—Mr. C.
L. Erickson and Miss Willanette Stam-

baugh were united in marriage last
night at the Occidental hotel. The
ceremony was performed by Rev. Dr.
Lewis Halsey of the First Baptist
church. Beside several friends of the
contracting parties, there were in at-
tendance the members of the society of
the King's daughters of which the
bride is a member. The groom is a
resident of Glendale, where he has re-
sided for several years. The bride has
lived in Phoenix the greater part of the
time for the last ten years. Both are
highly esteemed. Mr. and Mrs. Erick-
son will make their home at Glendale.

GOING TO CALIFORNIA—Mrs. E.
M. Wharton expects to leave soon
for California to reside permanently.
She will join her brother W. J. Mc-
Intyre, who is train dispatcher for the
Southern Pacific company at Indio,
and her son DeWitt, who at the pre-
sent time is away at school. Mrs.
Wharton has made Phoenix her home
for a great many years and has a wide
acquaintance. But though her home is
to be elsewhere she will not lose her
interest in Phoenix as she has quite
large property holdings which she will
retain as investments, having in com-
mon with all Phoenix people, great
confidence in the future of the city.
Her property is under lease and on an
income basis and she will probably
return from time to time to look after
business matters.

A GATHERING OF SHERIFFS—
There will be an outpouring of the
sheriffs of the territory in Phoenix this
week. Four of them are now here and
another, Sheriff Tom Wills of Pinal, is
at all times within striking distance.
The gentlemen already on the ground
are Gus Livingston of Yuma, C. L.
Fowler of Santa Cruz, James Lowry of
Yavapai and Harry Henderson of Co-
conino. They are going to meet for
the good of the order and incidentally
to put blocks in the way of the An-
derson bill which proposes to put their
offices on a salary basis. Then they
will have some suggestions of their
own to make to the legislators. They
will not ask for increase of their em-
oluments, but among other things they
will propose that sheriffs shall be elec-
ted to four year terms. The expense
attending a canvass for the office of
sheriff is heavier than that which at-
taches to any of the other county of-
fices, it frequently happening that the
candidate for re-election has to spend
the greater part of his earnings for the
first term.

A COMING CONFLICT—It is rum-
ored that the forces are gathering for
one of the most deadly battles in the
city that has ever been fought any-
where. The plan of battle as The Re-
publican's war correspondent has been
permitted to inspect it indicates that
the front of the lines will be on Cen-
ter street between Adams and Jeffers-
on, though there will be notable im-
agements on various streets and im-
portant skirmishes all over the town.

The ground is now held firmly by Gen-
eral Tuberculosis who has a force of
six hundred billion well trained bacilli
in daily parade and participating in
active drill. The troops, however, are
badly handicapped by the unusual
moisture of the season and while they
are fat and saucy they are inactive,
cumbersome and awkward in their
movements. They are incapacitated for
sudden charges and it is seldom that
even scouting parties can leave their
camps in the mud. It is really a har-
mless army by reason of its lethargy,
but in the event of drier weather
when it can circulate with greater
ease, it may become a menace to all
enemies. The opposing army is under
the command of General Typhus, who
is supposed to be equally well reforc-

ed by soldier bacilli, but as yet they are
keeping under cover. A number of
young officers of the Microbe battalion
have been engaged in scouting through
the country for the past two or three
weeks and it is understood they intend
to appear in force and throw up their
main entrenchments along Center
street. This contending army it is be-
lieved, will have the advantage as the
battleground is much more favorable
to the particular sort of warfare waged
by its troops. In fact it is ideal for
them, and if they gain a foothold the
way they will sweep the country will
make the Japanese in Manchuria thor-
oughly ashamed of their boasted ex-
ploits. Large parties of humbugs
stand on the street corners daily
and speculate concerning where they
will get off in the event the apprehend-
ed warfare shall become a reality.

THE TOWN STINKS—It is predic-
ted that the present soaking of the
town is going to be followed by a great
deal of sickness. It has been proved in
the last four or five weeks that this is
not a good place for a town. There
is too much leanness in the air of it.
The water will not run off of its
own accord and there seems to be no
one vested with authority to make it
run. Most of the gutters except those
which have been cemented lately are in
an unbearable condition. The
stench along Washington street from
Third street to Third avenue and on
Center from the postoffice to Jeffers-
on is almost unbearable. First street
and First avenue, between Adams and
Jefferson streets, are in almost the
same disgusting condition. A few peo-
ple, optimistic souls, think they see one
good thing that may come from out of
the stench and the sickness which may
follow. They are the people who re-
gret that Phoenix ever got a reputa-
tion as a health resort; who think that
the town would have done better to
stand on its real merits. They believe
now that this reputation will be dis-
ipated and Phoenix will have a chance
to build up solidly and naturally.
Those who have been driven away by
a perpetual assault on their olfactory
nerves will no doubt do a great deal
to head off the rush to Phoenix as a
health resort. There is some talk also
of making the condition of the streets
an issue in the next municipal election.
It has been mentioned that the streets
as they are now would not make a
good, solid foundation for a political
platform. On the other hand it is
pointed out that the city government
is not to blame. It is trying to in-
duce property owners in the central
part of the town to put cement gut-
ters in front of their holdings and by
other sort of improvement of the gut-
ters would be a makeshift which would
only delay the real improvement. The
council is without power to compel
compliance with its wishes. There are
several bills before the legislature now
for an extension of the powers of a
city council and there is talk of in-
troducing another to give councils
greater power in enforcing street im-
provements.

NEW MAN
NEW DRINKS

We have just secured the services of
one of the best soda dispensers in the
east. He comes to us with the highest
possible recommendations. During the
whole season of the world's fair at St.
Louis he had charge of the Becker Co.
29th century fountains, and knows all
the late drinks.

selection—every color you may require—stripes, checks, figures and plain
ones; each and every yard guaranteed to wash and hold its color; gin-
ghams you would readily pay 12½c for; Monday, yard..... 10c

THE CHANCE FOR VISITORS

To Avail Themselves of Bargains at
the Big Curio Store.

Now, that many of the winter visi-
tors are getting ready to return to
their homes in the north and east,
Balke's Big Curio store is being over-
run with visitors. They are taking
advantage of the reduced prices of the
closing out sale, in which cost to say
nothing of profit is being entirely dis-
regarded. Anything in the store, that
is anything for sale (for there are a
few curious articles with which Mr.
Balke would not part at any price),
may be had at almost the purchaser's
own figures.

On account of the weather Mr. Balke
found it necessary to discontinue for
the time his auction sale of Navajo
blankets. These sales will be resumed
as soon as possible but in the mean-
time those desirous of purchasing
blankets may procure them at the
store fully as cheap as they could have
done at the auction sales.

Mr. Balke on Saturday received
three more bales of blankets from the
Navajo reservation. This is another
instalment of the blankets purchased
by him from the Indians last summer
and which ought to have been shipped
before the holidays. However, they
must be sold and they will be sold for
what they will bring.

The time for Mr. Balke to start to
Europe on his purchasing tour of the
quaint and most attractive curios
as well as other merchandise is rapidly
approaching and he will not permit

his stock to delay his starting. It must
all go to make room next fall for the
most elaborate stock of the kind ever
seen in this part of the country.

Those who postpone visiting the Big
Curio are losing opportunities with
every day of delay. Though anything
that may be bought there will be a
bargain some bargains are better than
others and the best ones will natu-
rally be snapped up first.

THE GIRL AND THE BEE.

A Story of the Ignorance of a City
Girl.

The city girl coming down to break-
fast at the farm house and observing
a plate of honey on the table said, "Oh,
I see you keep a bee."

That's about the way some people
talk about the blight of badness—just
as if a bad habit was something one
got all at once instead of being the
result of long depletion by an insid-
ious germ which thrives upon the roots
of the hair and succumbs to only one
known remedy Newbro's Herpicide.

Newbro's Herpicide is not a tonic
any more than electricity is a fluid. It
is an exterminator, pure and simple.

"Destroy the cause you remove the
effect."

Sold by leading druggists. Send 10c
in stamps for sample to The Herpicide
Co., Detroit, Mich. H. Goodman, druggist,
special agent.

None but the best is good enough.
Try a "Kerry Gow" cigar.

The automobile is probably called a
devil because it always finds some
work for idle hands to do.—Philadel-
phia Record.

Married
Women

Every woman covets a
shapely, pretty figure, and
many of them deplore the
loss of their girlish forms
after marriage. The bearing
of children is often destructive
to the mother's shapeliness.
All of this can be avoided,
however, by the use of Mother's Friend before baby comes, as this
great liniment always prepares the body for the strain upon it, and
preserves the symmetry of her form. Mother's Friend overcomes all the
danger of child-birth, and carries the expectant mother safely through
this critical period without pain. It is woman's greatest blessing.
Thousands gratefully tell of the benefit and relief derived from the
use of this wonderful
remedy. Sold by all
druggists at \$1.00 per
bottle. Our little
book, telling all about
this liniment, will be sent free.
